## Theme Exhibitions

## Background

Under the background of "The Belt and Road Initiative" and "Made in China 2025", China's manufacturing is becoming increasingly active in global resource allocation and global manufacturing chain. With the deep integration of IT and manufacturing, China's manufacturing ushers in new production modes, industrial formats, business modes and economic growth points.

Supported by the policy of *Coordinated Development for Beijing-Tianjin-Hebei Region*, Tianjin, one of advanced manufacturing R&D bases in China, strongly drives the development of surrounding markets and has become the most important industrial market in China.

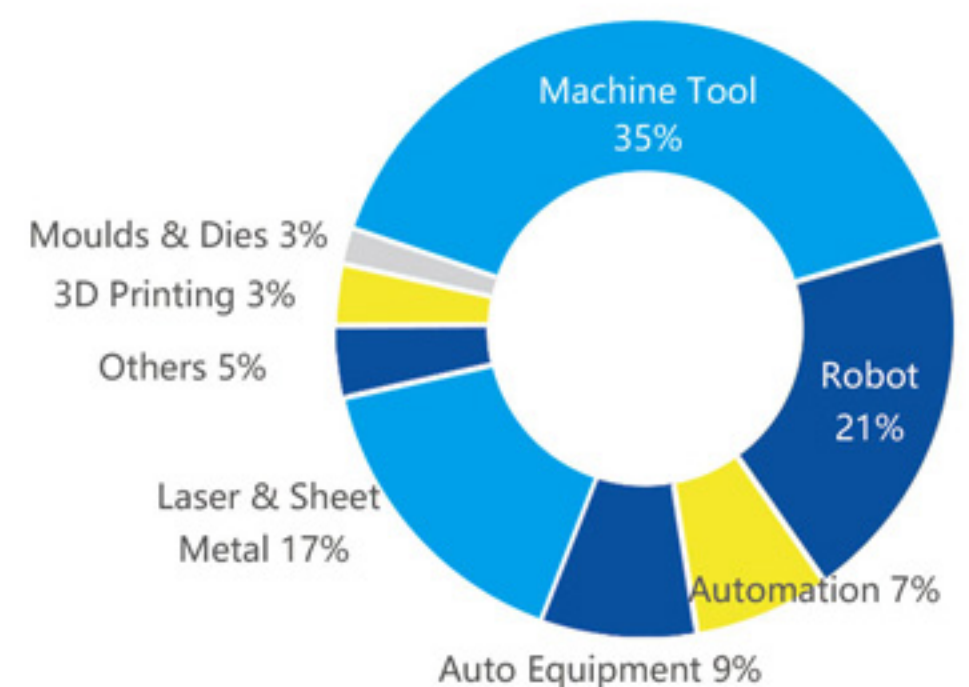

## Introduction

Approved by UFI, the 16th China (Tianjin) International Equipment & Manufacturing Industrial Expo. (CIEX2020) will take place on March 12-15, 2020 at Meijiang Convention & Exhibition Center, Tianjin, China. More than 10 year's accumulation brings CIEX with a database of over 300,000 buyers. With a total area of 90,000 sqm, CIEX attracted 1,000 brands and more than 90,000 visitors around the world in 2019.

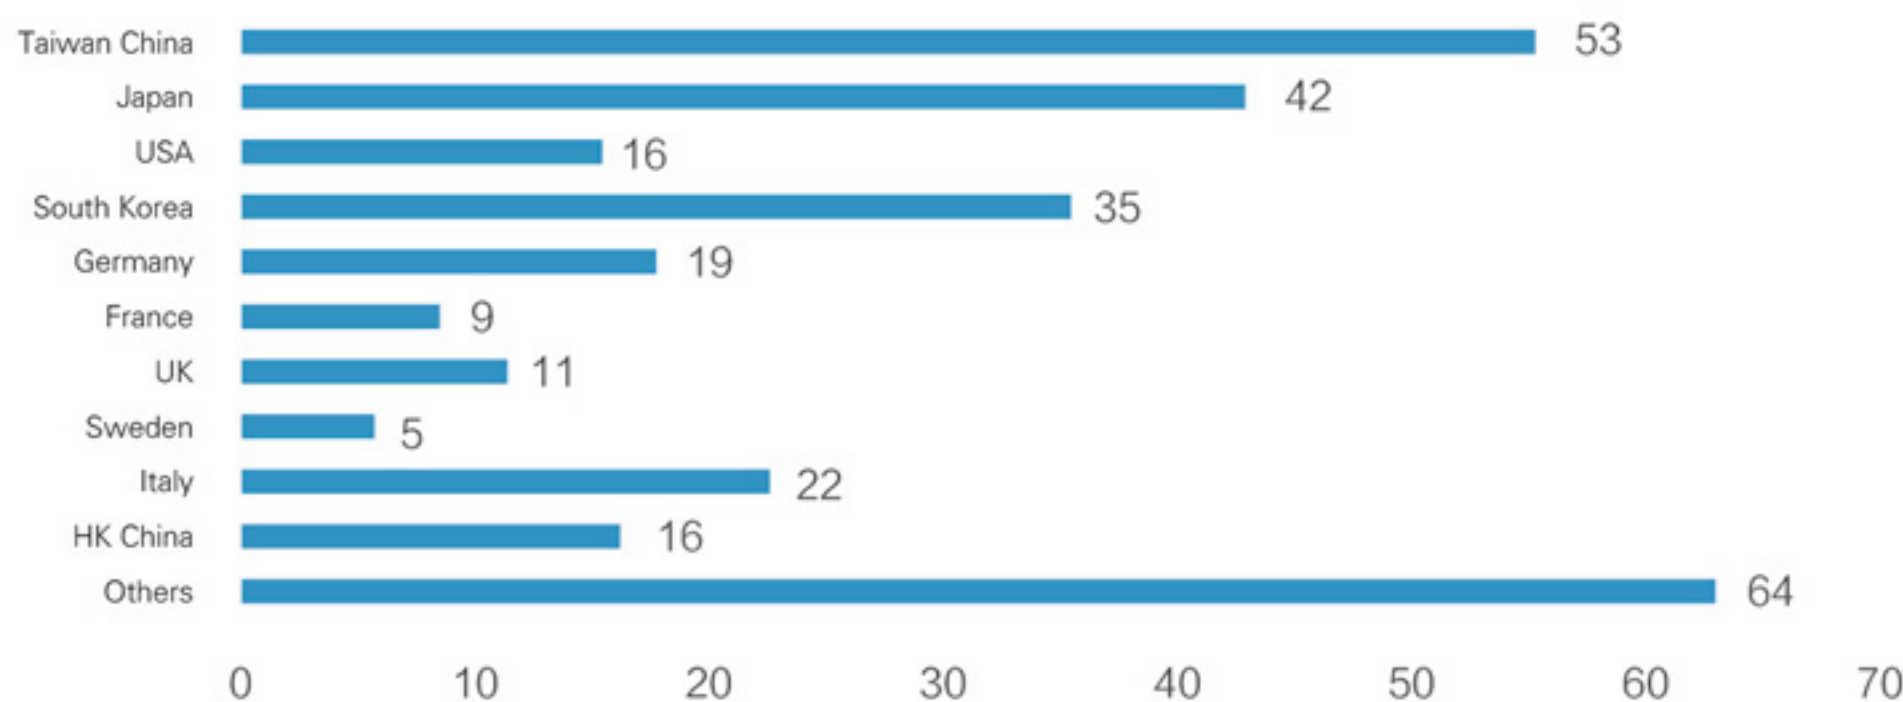

## CIEX2019 Reaches Largest Scale Ever!

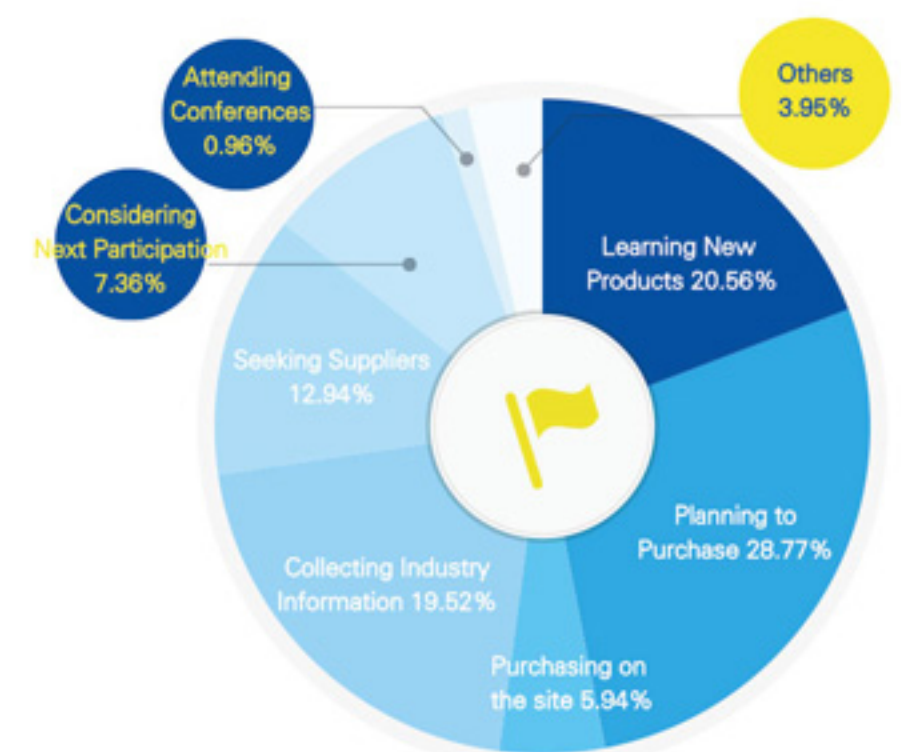

Changes in the Scale of CIEX in Recent 5 Years

Exhibitor Distribution

Sources of Overseas Exhibitors

Visiting Purposes

90,000<sup>+</sup> Sqm

90,000<sup>+</sup> Visitors

10<sup>+</sup> Forums

400<sup>+</sup> Purchase Groups

1,000<sup>+</sup> Brands

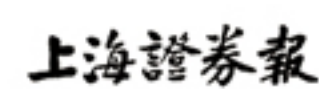

100<sup>+</sup> Media

## Purchase Cluster

## Media

## Conferences/Seminars/Forums

- Tianjin Intelligent Manufacturing Industry Development Summit Forum
- 2020 China Laser & Equipment Manufacturing Summit Forum
- CIEEX2020 Purchasers Seminar
- International Robot Show
- New Energy Automotive Industry Development Summit Forum

## The Voice of Participants

### Mr. Victor Kladov Director of International Cooperation and Regional Policy of Rostec

Although it's the first time for us to participate in CIEEX, we're greatly impressed by this show. Not matter from the quantity of exhibitors or from Zhenwei's organizing level, CIEEX is an outstanding international show. Most importantly, CIEEX is a professional platform for advanced enterprises mastering top industry technologies who want to communicate with each other.

### Mr. Song Wenbo GM of Hardinge Beijing

The scale of CIEEX is much better than what I've thought. Of course, the exhibition is quite effective, because many potential customers have placed orders on the site directly. In terms of the national industry distribution, Tianjin is important in the field of machining, so it will be more effective to participate in a show in Tianjin and it will be easier to develop the market here.

### The Executive Agency for Small and Medium-sized Enterprises (EASME)

It's the first time for us to visit a show in China and we're greatly impressed by CIEEX. Here, you can see many famous enterprises like in many other countries; the advanced CNC machine tools and intelligent equipment they've brought are marvelous. Through the platform of CIEEX, we also visit SUBLUE, EFY TECHNOLOGY and other companies we've been paying attention to, which deepens my understanding of Made in China.

# CIEX 2020

THE 16<sup>TH</sup> CHINA (TIANJIN) INTERNATIONAL EQUIPMENT & MANUFACTURING INDUSTRY EXPO.

**March 12-15, 2020    Tianjin, China**

## Exhibition Scope

### Machine Tool

Metal Cutting Machine Tool, Special Processing Machine Tool, CNC System and Modern Manufacturing Technology, Accessories and Components, Testing Instruments and Tools, Flexible Manufacturing Unit and System, Various Software Manufacturing and Network Technology, Abrasives, Moulds and Plate Processing

### Laser & Sheet Metal

Metal Forming Equipment, Additive and 3D Printing, Forging and Die Casting Machinery, Sheet Metal and Laser Cutting Equipment, Optical Production and Information Technology, Laser Repairing and Cleaning Technology, Laser Manufacturing and Cleaning Technology, Surface Treatment and Forming Equipment

### Robot

Industrial Robot, Service Robot, Functional Accessories/Parts, Application Products and Solutions, Machine Vision, System Integration and Application, Robot Developing Platform & Software Technology, Intelligent Logistics, Intelligent Production Line, Smart Factory, Industrial IoT system

### Automotive Equipment

Assembly Engineering, Stamping, Coating Engineering, Welding Engineering, Final Assembly Engineering, New Energy Automotive Engineering, Lightweight Manufacturing Technology & Equipment, Materials and Design, Auto Parts Manufacturing Technology & Equipment

### Industrial Assembly & Automation

Assembly System Integration, Transmission Technology, Assembly Technology, Screwing Technology, Connecting Technology, Marking Technology, Driving, Controlling & Testing Technology, Mechanical Transmission Components, Measuring & Testing Technology, Machine Vision, Pneumatic Technology

### Plastic Rubber & Packaging

Injection Molding Machine, Blowing Machine, Rubber Machinery Equipment, Plastic Packaging Equipment, Printing Packaging Equipment, Packaging Products, Plastic Molds, Extruders & Extrusion Production Line, Dies & Molds, Reaction/Reinforced Resin Technology, Thin Film Technology

## Charge

### STANDARD BOOTH

**USD 3,000/9m<sup>2</sup>**

1 Carpet, 3 Side Boards, 1 Lintel  
1 Consulting Desk, 2 Chairs, 2 Spotlights,  
1 Outlet

### RAW SPACE

**USD 300/m<sup>2</sup>**

No equipment is provided in raw space, so exhibitors can decorate it by themselves or contact the official contractor.

### CONFERENCE/FORUM

**USD 3,000/session**

Each conference will last 1 hour, and Organizer will offer the meeting room, sound equipment, projector, screen, mineral water and other relevant services.

Based on the deep foundation laid in the 15 previous successful sessions, the 16th China (Tianjin) International Equipment & Manufacturing Industrial Expo. (hereinafter referred to as CIEEX2020) will showcase cutting-edge technologies and solutions regarding the machine tool, laser, robot, automobile equipment, plastic rubber & packaging. In order to display the whole industrial chain and establish an industrial eco-system serving industrial upstream and downstream enterprises, CIEEX strives to set up a high-class platform for industrial enterprises and visitors.

#### IMEX – Tianjin International Machine Tool Exhibition

- Exhibition Area: 35,000 sqm
- Most Represented Fields: Machine Tool, Sheet-Metal, Metal Cutting, EDM, Various Functional Component and Matching Products
- Representative Enterprises:   **Hartford** 

#### TLSE – Tianjin International Laser Processing Exhibition

- Exhibition Area: 15,000 sqm
- Most Represented Fields: Metal Forming Equipment, Additive and 3D Printing, Sheet Metal and Laser Cutting Equipment, Optical Production and Information Technology, Surface Treatment
- Representative Enterprises:     

#### CIRE – Tianjin International Robot Exhibition

- Exhibition Area: 18,000 sqm
- Most Represented Fields: Industrial Robot, Service Robot, System Integrator, Robot Functional Accessories, Machine Vision, Robot Developing Platform and Software, 3D Printing
- Representative Enterprises:  **ABB**  **SIEMENS** **Panasonic**

#### TAMT – Tianjin International Automotive Manufacturing Technology & Equipment Exhibition

- Exhibition Area: 15,000 sqm
- Most Represented Fields: Assembly Engineering, Machining Process, Materials and Design, Final Assembly Engineering, Welding Engineering, Robot System Integration, Stamping, Coating Engineering, Assembly System Integration
- Representative Enterprises:   **YUANHE** **DEMC**

#### CPRE - Tianjin International Plastic Rubber and Packaging Industry Exhibition

- Most Represented Fields: Plastic Processing, Plastic and Raw Material, Chemical Additives, Composite Materials, Special Rubber Machinery
- Representative Enterprises:    **BORUNTE**

**Comprehensive Service Provider  
of Global Exhibition**  
**ZHENWEI EXHIBITION CORP.**

**Tianjin Zhenwei Exhibition Co., Ltd.**
