## ABOUT EXPO

IESE is an influential emergency safety industry expo in China, creating the preferred platform for global industrial biggest players to come together and discuss the latest trends in safety. In its last edition in 2022, IESE 2022 featured over 600 exhibitors and attracted 35,000 visitors in the exhibition area of 40,000 sq.m.

IESE 2023 will focus on emergency management, fire safety, forest fire safety, water rescue, emergency information technology, chemical safety, explosion protection, emergency rescue, epidemic prevention, and PPE, including a series of concurrent activities. It's where businesses and networks will be built that will bring you the buyers and benefit the entire industry for years to come.
